

September 11, 2008

To: Parents and Staff of Therapeutic Pathways/The Kendall School

As you probably know the California state budget is now more than 2 months overdue. This presents a significant barrier in continuing to provide the services your child needs. It is imperative that our legislators hear from as many people as possible NOW, TODAY, to urge them to make whatever compromises are necessary to pass a budget.

Our funding agencies are already paying us with borrowed money, money which we expect will not be available beyond the middle to end of September. If this happens and we are informed that we will not be paid without a new budget in place, which we understand as business owners, we will have no way to meet payroll, or provide services to the children until the budget is passed.

Please take time today to write and call the governor and legislators on the list below- urge them to pass a budget- tell them what it means to your family –

<http://www.leginfo.ca.gov/yourleg.html>

Thank you, and we DO look forward to providing seamless services- if at all possible.

Sincerely,

Therapeutic Pathways/Kendall School Directors
